Mr. Fellows offered the following:

Be it Resolved, By the mayor and council, that the city engineer be and is hereby instructed to prepare plans and specifications and estimate for the sewer to include lots as prayed for in the foregoing petition. On motion the resolution was adopted.

Petition signed by P. I. Bonebrake, C. O. Knowles, J. J. Frey, John R. Mulvane and 216 others, requesting that the subject of the building of a new bridge across the river on Kansas avenue be carefully considered, was presented

and referred to the committee on ways and means.

The petition sets forth the following state-

ments:

First.—That seven or eight years ago, and periodically since, the Kansas avenue bridge was condemned by expert engineers as unsafe.

Second.—That its continued use since, while gratifying, simply brings the time nearer when it will go down, carrying with it the live load which will be the immediate cause of the long predicted collapse.

It will go down. carrying with it the live load which will be the immediate cause of the long predicted collapse.

Third.—That the city will then be called upon to meet, not only the cost of a new bridge, but damage sults from 25 to 50 (or even greater,) per cent of the cost of a new bridge, besides entailing life long regret for a useless sacrifice.

Fourth.—That in the emergency the best selection will not be possible, and we shall probably be saddled for all time with a bridge which will fall far short of our own artistic standard and that of our successors.

Fifth.—That it is believed that a bridge is possible, which shall utilize in its construction a large proportion of native material and home labor, rather than have the chief expenditure made at a distance.

Sixth.—That by removing the island and extending the south bank about 150 feet into the river, with a stone retaining wall above and below the bridge, the river channel will be vastly improved, the length and expanse of the bridge be materially lessened, and the city park be made much more beautifully and serviceable, with a corresponding park at the southeast corner of the bridge.

Seventh. That while it is of doubtful expedience for cities to undertake public work simply for the sake of creating a demand for labor, the necessity for a new bridge is so urgent as to justify immediate action, and the employment of many idle men will be a very satisfactory incident.

Eighth. The development of the Park and

of many idie men will be a very satisfactory incident.

Eighth. The development of the Park and fock embankment, which might be considered a luxury, can doubtless be used for giving relief labor at moderate rates, thus avoiding charity that depreciates self respect.

It is earnestly urged that the subject be taken up vigorously and that it is a public work in which the greatest general satisfaction would be secured, it is suggested that a committee of three or four members of the council and of an equal number of claizens, be appointed to carefully consider plans and methods for securing the best results and report to your honorable body at an early date.

Petition of J. Thomas and twenty-four others asking that a sidewalk be built on south end of lots 371 and 373. Eighth avenue east, was presented and referred to committee on streets and walks.

Petition of H. O. Austin and twenty-four others, requesting that an electric light be placed on the corner of Eighth avenue and Hancock street, in place of the one removed from there; referred to committee on gas and

liancock street, in place of the one removed from there; referred to committee on gas and electric lights.

The following reports of city officers for the month of May were presented and ordered placed on file, viz: City freasurer, police judge, food inspector, superintendent electric light, O. A. Morgan and A. C. Wailnee, weighmasters.

The committee on health reported back report of W. S. Lindsay, M. D., in relation to the free dispensary, and recommended that \$10 per month be allowed for medicines, if deemed necessary. Report on motion was adopted.

Committee on sewers and waterworks reported back the communication of J. H. Schlegel, and recommended the prayer of the petitioner be not granted, but that the sewer be flished and kept clean. Report adopted. The same committee reported back the communication of W. W. Phillips, agent, requesting permission to connect lot No. 433, Kansas avenue, with sewer in district No. 14, and recommended that the prayer of the petitioner be granted. Report on roll call was adopted.

"Deputies moving on Bull Hill, Skir-

mishing is in progress. No one killed yet that we know of." Governor Waite is determined to prevent bloodshed at Cripple Creek if possible. He has instructed General Brooks not to allow armed deputies to pass through his lines, but to permit Sheriff Bowers to pass through alone and serve papers on the miners. The governor will not permit wholesale arrests.

All news from Cripple Creek is sent by telephone, as the deputies have cut all telegraph wires and will not allow repairs to be made. M. C. Duncan, a Western Union lineman, was fired upon by deputies when

he put spurs to his horse to avoid arrest,

and his horse was wounded. The Situation Critical. The situation is extremely critical in view of Governor Waite's orders to Gen. Brooks not to allow the deputies to pass through his lines, and may result in a conflict between the militia and the miners on one side and the deputies on

the other.

A Cripple Creek newspaper publishes today what purports to be interviews with Under Sheriff Mullins and County Commissioner Boyton, who are in charge of the army of for six months, but 1,200 deputies camped within sight of would be no effort mad Bull Hill. Mullins declares it is the intention to storm Bull Hill regardless of consequences. Commissioner Boynton was even more emphatic. He declared that Gov. Waite or any other man had no right to arbitrate out of the law. There were men on Bull Hill guilty of grave crimes, for whose arrest they had warrants. These men would be arrested at all hazards. He allowed that in doing this many lives would be placed in jeopardy. Nevertheless, the county had gone to great expense in the massing of a large force with which to vindicate the law, and this was not the time for hesitation. It is conceded that the deputies are safe from attack so long as they attempt no offensive movement.

It is raining and is bitterly cold. State Troops Leave Divide, State troops numbering 320 men left Divide at 6 o'clock for Midland, from which point they will march to Bull Hill. The troops are equipped with two Napoleon field pieces and a gatling gun. More troops are expected during the day.

An Engagement Takes Place. CRIPPLE CREEK, Colo., June 6 .- At 9:30 o'clock today a skirmish took place between the miners and deputies. 300 shots were fired, but so far as known no one was killed.

During the night the miners threw up fortifications along the line of the hills between Bull mountain and the depeties' camp. Sixteen miners advanced on the picket lines of the deputies and secured horses belonging to the cavalry men. The pickets opened fire, but the miners drove them back. Immediately the full force of deputies took up the line of battle and gave chase to the miners, who retreated with the stolen horses. The retreated with the stolen horses. miners took refuge behind their fortifica-

A battle at long range followed. The deputies got their Parrot and Gatling guns in position and fired several shots

from them. General Adams says he will train his long guns on Bull Hill and begin a bombardment of the miners on the fortress if the militia do not arrive soon. The troops are now marching from Midland, but the roads are almost impassable and they

cannot reach Bull Hill before 4 p. m. Sheriff Bowers is with Gen. Brooks and Adjutant General Tarsney. The sheriff declares that when the troops reach Bull Hill the deputies will arrest the men for

whom he has warrants. SHOOTING AT FARMERSBURG. Indiana Troops Have an Exciting Ex-

SHELBURN, Ind., June 7 .- About one o'clock this morning, several drunken men approached the picket line around the militiamen stationed at Farmersburg and taunted the guards. One man attempted to pass through

the line and was brought to a halt. The intruder hurled a brick at the guard and the latter opened fire. This was the signal for a general fusilade of stones and firing by the guards. Forty or fifty shots were fired in quick succes sion. Col. Ebel, of Terre Haute commanding the three companies called to arms all his men, but they were unable to run down the attacking party, not one being found. The firing caused great

A general alarm was sounded and companies D. of Washington A. of Indianapolis and the second regiment of Indepen-

dents under Col. Rose were ordered to Farmersburg on the double quick. Three companies under Major Pennington were ordered out to skirmish be-

tween this place and Farmersburg. It was feared that there might be a general attack made on the small forces. No strikers were overhauled on the way up, all the troops remaining here being held on the reserve until 4 o'clock when a message to Gen. McKee from Col. Ebel at Farmersburg announced that there seemed to be no more danger.

Strikers at Frostburg Merely Waiting For Militia to Withdraw.

FROSTBURG, Md., June 7.—Pickets patrolled all the small mining towns in the vicinity of Frostburg last night and doubtless prevented a repetition of the dynamite outrage of the night before. During the night a sentry from the fourth regiment was attacked with a club by an unknown man, supposed to be a

etriker. At Eckart where the largest mine is situated, the strikers during the night stoned a number of houses, in which lived miners who have refused to come out. The militia men outnumber the strikers and there is little probability of

anything like a serious row. The backbone of the strike is by no means broken. The strikers are simply waiting for the troops to withdraw.

AT M'KEESPORT.

The Streets Filled With Idle Men Wait-

ing for Events.

McKresport, Pa., June 7.—The streets are filled with idlers, despite the numerous proclamations of Sheriff Richards and the mayor. The largest gatherings were about the

tube works and depots, the strikers still fearing that the firm would attempt to operate the plant or that new men or deputies would be brought in.

A concession was made by them today in allowing a force of men to enter the in allowing a force of men to enter the tube works to take care of the artificial

gas furnaces, which were in danger of destruction from lack of attendance. Great excitement was caused about midnight by the booming of a cannon on the opposite side of the river. The people rushed from their houses to the river front, believing that deputies, or that new workmen had arrived. No cause for firing the cannon could be learned, and the citizens returned to their homes.

This was the only exciting incident of the night. A PROPHET OF WAR.

Myron Reed Foresees War in the Labor Situation in This Country. DENVER, June 7.—In an address last evening before the Union League Rev. Myron Reed, who has resigned the pastorate of the First Congregational church on account of the adverse feeling by his expression of sympathy for the Cripple Creek strikers Sunday said: "I am not a prophet, but I am the son of a prophet.

My father foresaw the beginning of the
war; I see the beginning of a war now.

On the hill they are fighting the first
battle. Special advantages to none,
equal opportunities to all. Under this
banner we fight this fight."

Manager Converse of McKeesport Will Not Hire Deputies. McKeesport, June 7 .- General Manager Converse denies the report published today that the works would remain idle for six months, but added that there would be no effort made to resume until

The policy of the company said he, "is to avoid trouble and we do not want a repetition of the great strike at Homestead. No deputies will be asked to aid in protecting our works and the strikers

may wander through if they desire." OHIO TROOPS CALLED OUT. Militia Marchalling at Akron, Tiffin and Kenton. AKRON, O., June 7 .- In response to the governor's call for troops to suppress the

expected outbreak today at Cambridge, companies F and G of the eighth regiment left here at an early hour this morning for the scene of trouble.

The second infantry has been ordered to report at Columbus, immediately. Col. Kuert will concentrate at Kenton, O. COLUMBUS, Ohio, June 7,—Governor McKinley has ordered out the 2nd regiment, Ohio guard, headquarters at Tiffin, on account of increased mining troubles

in Belmont county, near Wheeling, Va., and has put the Third regiment at Dayton under arms.

IN WEST VIRGINIA. More Men Join the United Mine Workers and Quit Work. KENOVA, W. Va., June 7 .- W. P. Slaughter, local representative of the Pocahontas coal company, this morning received a telegram from Dingess, West Virginia, stating that the miners of their

pits at that point had joined the general The men at Dingess were organized with the United Mine workers last week and came out by order of President Mc-Bride. It is not believed that the strike there will at all effect the main portion of the Pocahontas regions, as the miners farther up the road are mostly negroes and foreigners, who have no sympathy

with the strike.

LAWLESSNESS IN OHIO. Passenger Trains Stopped And a Railroad Bridge Burned. BELAIRE, O., June 7 .- The strikers

have cut all trains in sections and pushed them into the yards here, so that passen-

ger trains cannot pass. The soldiers are expected at any moment.
BRIDGEPORT, O., June 7.—The trainmen report that a Baltimore & Ohlo bridge has been burned near Barnesville. Troops are expected here mo-mentarily and the coal crews have been ordered to report at noon. Miners are prepared to resist any effort to put coal
